

Early Warning and Reporting System (EWARS)

Weekly Bulletin

(9th Epidemiological Week)

11 March 2018

**Government of Nepal
Ministry of Health
Department of Health Services
Epidemiology and Disease Control Division
Kathmandu, Nepal
ewarsedcd@gmail.com**

This bulletin includes the updates from the Early Warning Reporting System (EWARS). It includes data since January 2018 till date, including comparison of same period during last year.

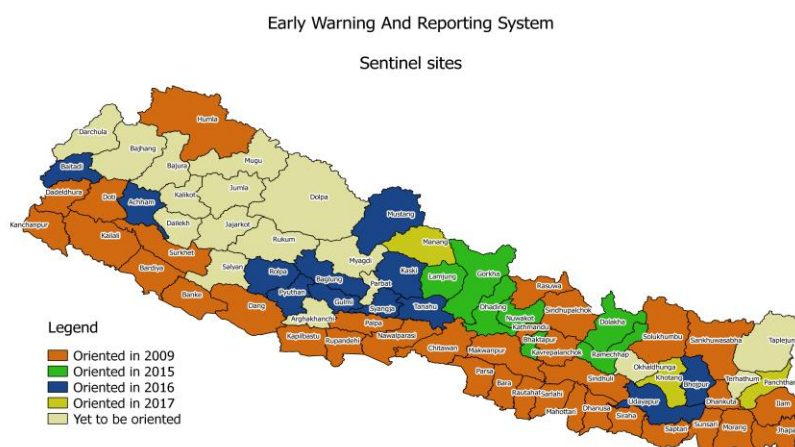

Section 1: The Early Warning and Reporting System (EWARS)

Highlights

- **Kala-azar:** Two cases of Kala-azar are reported this week from United Mission Hospital, Palpa and both the cases are from Palpa district.
- **Malaria:** Two cases of Malaria (*Plasmodium Vivax*) are reported this week, one each from BPKIH, Dharan and District Hospital, Pyuthan. The cases are from Sunsari and Pyuthan district respectively.
- **Dengue:** No case of Dengue is reported this week.
- **Scrub Typhus:** No case of Scrub Typhus is reported this week.
- No death from SARI and AGE is reported this week.

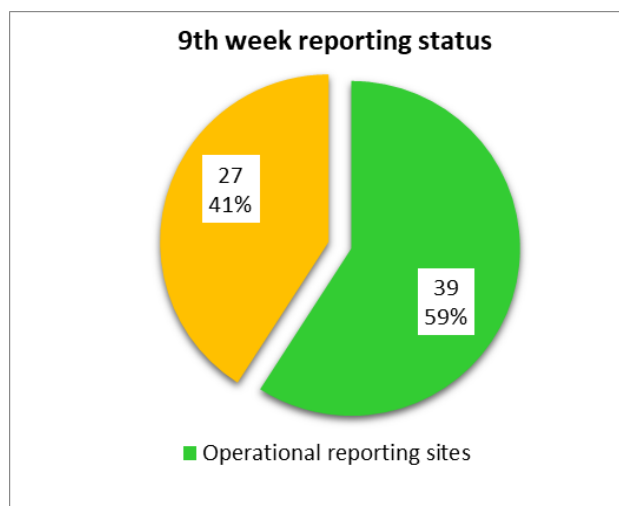

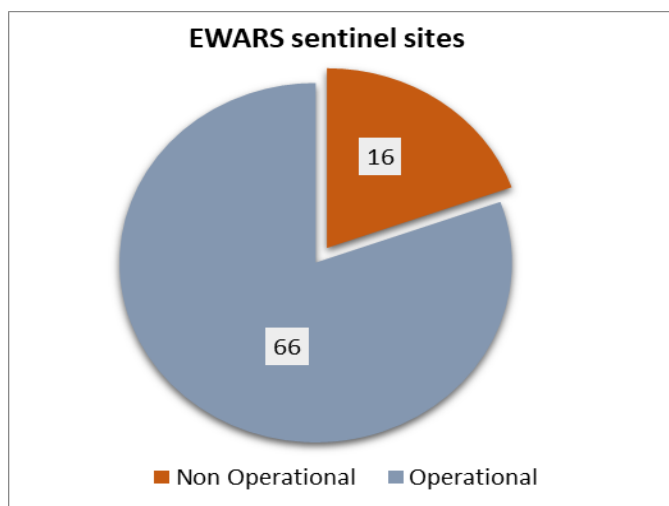

The EWARS was established in 1997 to strengthen the flow of information on vector-borne and other outbreak prone infectious diseases from the district to Epidemiology and Disease Control Division (EDCD) and Vector-Borne Disease Research and Training Center (VBDRTC), Hetauda. Rapid Response Teams (RRTs) can be mobilized at short notice to facilitate prompt outbreak response at Central, Regional and District level. RRTs can also support local level health institutions for investigation and outbreak control activities.

This information system is hospital-based and is currently operational in 65 hospitals (out of 82 sites) throughout Nepal (Figure 1). So far, the EWARS mainly focuses on the **weekly reporting** of number of cases and deaths (including "zero" reports) of six priority diseases/syndromes—Malaria, Kala-azar, Dengue, Acute Gastroenteritis (AGE), Cholera and Severe Acute Respiratory Infection (SARI), and other epidemic potential diseases/syndromes (like enteric fever). It equally focuses on **immediate reporting** (to be reported within 24 hours of diagnosis) of one confirmed case of Cholera, Kala-azar severe and complicated Malaria and one suspect/clinical case of Dengue as well as 5 or more cases of AGE and SARI from the same geographical locality in one week period.

Reporting Status

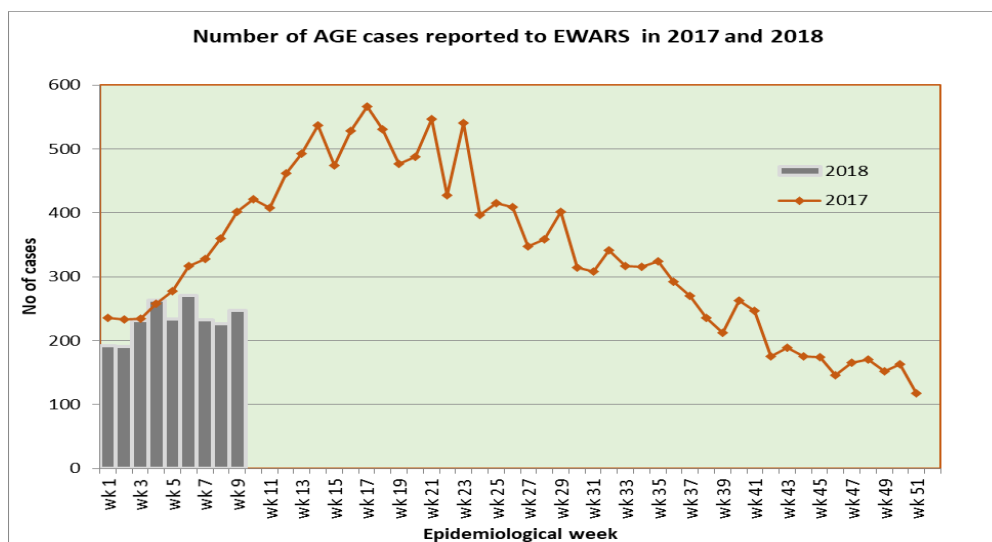

Out of 66 functional EWARS sentinel sites, report was received from 39 sentinel sites (59 percent) whereas 28 sentinel sites did not report in 9th Epidemiological week of 2018. The reporting coverage is same as compared to previous week.

1.1 Acute Gastro-Enteritis and Cholera

247 cases of AGE are reported in 9th epidemiological week of 2018. Among 247 cases, the majority of cases are from Kanchanpur (28 cases), Achham (21 cases), Rupandehi (18 cases), Lamjung (15 cases), Dhanusha (14 cases), Ilam (14 cases), Sunsari (11 cases) and Pyuthan (10 cases) district. The number of AGE cases reported in 9th week this year did not exceed the number of AGE cases reported in the same week last year (402 cases).

No death from AGE is reported this week. Two deaths from AGE are reported so far this year. Twenty deaths from AGE were reported in 2017.

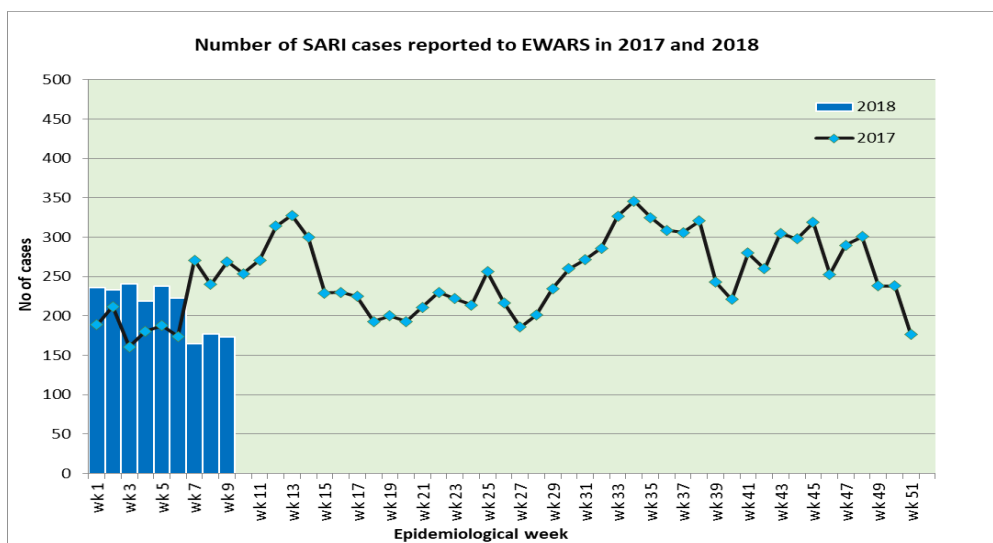

1.2 Severe Acute Respiratory Infection (SARI)

173 cases of SARI are reported in 9th epidemiological week of 2018. The cases of SARI reported this week did not exceed the number reported in the same week last year (269 cases). Among 173 reported cases, the majority of

cases are from, Morang (36 cases), Rupandehi (16 cases), Kanchanpur (8 cases), Dhanusha (8 cases), Panchthar (8 cases), Surkhet (6 cases) and Taplejung (6 cases) district.

No death from SARI are reported this week. 15 deaths from SARI are reported so far this year. Eighty two deaths from SARI were reported in 2017.

1.3 Enteric Fever

24 cases of Enteric fever are reported this week including 7 from Kaski, 4 from Morang, 3 from Tanahun and two from Lamjung district. No death from Enteric fever is reported so far this year. Three deaths from Enteric Fever were reported in 2017.

1.4 Malaria

Two cases of Malaria (*Plasmodium Vivax*) are reported this week, one each from BPKIHS Dharan and District Hospital, Pyuthan and the cases are from Sunsari and Pyuthan district respectively. Three cases of Malaria are reported so far this year. Ninety one cases of Malaria are reported through EWARS in 2017.

1.5 Dengue

No case of Dengue is reported this week. Nine cases of Dengue including one death are reported so far this year. 1201 cases of dengue are reported through EWARS in 2017.

1.6 Kala-azar

Two cases of Kala-azar are reported this week from United Mission Hospital, Palpa and both the cases are from Palpa district. Twenty six cases of Kala azar are reported so far this year.

Two hundred twelve cases of Kala-azar were reported through EWARS in 2017.

1.7 Scrub Typhus

No case of Scrub typhus is reported this week. Thirteen cases of scrub typhus are reported so far this year. 451 cases of Scrub Typhus were reported through EWARS in 2017.

Timeliness & completeness of reporting from sentinel sites:

| Site Code | Sentinel Sites | Timeliness (This Week) | Completeness (%) | Site Code | Sentinel Sites | Timeliness (This Week) | Completeness (%) |
|-----------|-----------------------------|------------------------|------------------|-----------|--------------------------|------------------------|------------------|
| 101 | Mechi ZH, Jhapa | No Reporting | 88 | 135 | DH, Sindhuli | On Time | 100 |
| 102 | Koshi ZH, Morang | On Time | 100 | 136 | DH, Illam | On Time | 100 |
| 103 | DH, Sunsari | On Time | 100 | 137 | Dhulikhel H., Kavre | No Reporting | 88 |
| 104 | BPKIHS, Dharan | On Time | 100 | 138 | DH, Solukhumbu | On Time | 100 |
| 105 | DH, Dhankuta | On Time | 100 | 139 | DH, Dolpa | No Reporting | 0 |

| 132 | AMDA Hosp., Jhapa | Late reporting | 100 | 240 | DH, Udayapur | No Reporting | 0 |
| 133 | DH, Chautara | On Time | 100 | 301 | Bayalpata Hosp., Achham | On Time | 100 |
| 134 | DH, Sarlahi | On Time | 100 | | | | |
| | | | | | | Excellent (>80) | |
| | | | | | | Satisfactory (50-79) | |
| | | | | | | Bad(<50) | |

Acknowledgement

The Epidemiology and Disease Control Division highly acknowledges the contribution from all the medical recorders, EWARS focal persons, rapid response team members and support from WHO for preparation of this bulletin.

Note: EWARS reporting form (in MS Excel format) is available at EDCD's official website www.edcd.gov.np. This bulletin is also available at the website.
